- 1.2 The contractor shall confirm acceptance of the purchase order to the orderer within 10 days on the attached form sheet.
- 1.3 The contractor's delivery terms shall only apply if this has been confirmed expressly by the orderer in writing. The execution of the purchase order shall imply a recognition of the present terms of purchase.
- 1.4 The contractor shall treat the contract conclusion confidentially. He may only name the orderer as reference vis-à-vis third parties with the orderer's written consent.

- 5.4 Any defects in the delivered goods notified during the warranty period, including the non-existence of warranted properties, shall be eliminated by the contractor upon request and free of charge - including ancillary expenses. If this is not possible or the orderer cannot be expected to accept the repaired parts, the contractor shall replace the defective parts by defect-free parts free of charge.

- 5.5 In urgent cases or if the contractor fails to comply with his warranty obligation, the orderer may take the necessary measures himself at the contractor's expense, irrespective of the contractor's warranty obligation; with the exception of urgent cases, the contractor shall be notified about the implementation of measures.

After execution of the work, the contractor shall send the drawings, calculations and other documents related to the delivered goods in the required number and design to the orderer without delay. The contractor shall transfer ownership in such items to the orderer free of charge. The intellectual property in such items shall remain thereby unaffected. The orderer or third parties may use such items free of charge for the purpose of maintenance and changes and the manufacture of spare parts.
- 6.2 By the orderer's consent to drawings, calculations and other technical documents, the contractor's sole responsibility with a view to the delivered goods shall not be affected. Unless the contractor contradicts in writing, this shall also apply to suggestions and recommendations made by the orderer as well as to changes discussed between contractor and orderer.
- 6.3 All execution documents, devices, tools, models, etc. provided to the contractor shall remain property of the orderer and may only be used for the contractually agreed purposes and be made available to third parties to such extent.
